

INFIELD ACCELERATED TRAINING WEEKEND

September 3 - 4, 2011
Baltimore, MD

Want to take your defensive game to the next level?

Not satisfied with your performance in the field?

Need repetition and instruction to improve your fielding techniques?

Join Baseball Factory for a two-day comprehensive infield training session and benefit from:

◆ **First Class Instruction:** Our experienced coaches include professional scouts, former professional players and former college coaches. Players will benefit from a low player-to-coach ratio. Baseball Factory coaches have the knowledge and experience to raise the level of your play.

◆ **Intense Training:** Receive numerous ground balls through various drills that will work your forehands, backhands, double play feeds/turns, and slow rollers. Our coaches will teach you the proper mechanics and give you the opportunity to practice those mechanics through repetition.

◆ **Off Season Work:** Start working on your fundamentals this off-season and squeeze in some extra time honing your defensive skills.

“Just wanted to recap this weekend in Columbia, MD. One word to describe it is WOW, Nick learned in one weekend things he has never been taught, and he sucked it up like a sponge. Thank you so much for seeing something in him and giving him this opportunity to excel.”

-Skip & Cyndie Mistretta, Baseball Factory Parents
